

# LEASE ACCOUNTING

# Workshop

Did you know that forthcoming accounting change will transform balance sheets and force a re-thinking of real estate strategies ... and that many real estate processes will have to become SOX-compliant?

Please join Grubb & Ellis and fellow corporate real estate and finance executives for a workshop on the new lease accounting changes that will be affecting your company.

Come hear how different companies and industries will be affected, the latest on FASB deliberations, implications for your real estate strategies and processes, and how your peers are addressing those implications.

Hosted by Grubb & Ellis experts on the forthcoming lease accounting:
